Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver's target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

that is cost-effective and employs a variety of service delivery approache	A State has the latitude to design a waiver programes, including participant direction of services.
Request for an Amendment to a §1915(c) Services Waive	
1. Request Information

This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

Brief Waiver Description. In one page or less, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods. The Children's Choice (CC) Waiver, a 1915(c) waiver is designed to enhance the home and community-based supports and services available to children ages 0 through 18 with intellectual and/or developmental disabilities, who would otherwise require an intermediate care facility for the developmentally disabled (ICF/DD).

The goals of the CC Waiver are as follows:

- Create options and provide meaningful opportunities by providing home and community-based services that enhance the lives of children ages 0 through 18 with developmental disabilities that meet the ICF/DD level of care.
- Ensure that the participant/family has freedom to make choices in his/her life;
- Promote the participant/family's self-determination in exercising control over his/her life;
- Ensure the participant's health and welfare;
- Ensure that the participant/family has the support and assistance needed to care for himself/herself and to engage in his/her community; and
- Enhance the participant's natural supports.

The objectives of the CC Waiver are as follows:

- Offer the participant/family a choice in selecting providers and support coordination agencies through Freedom of Choice forms;
- Develop an individualized plan of care that embraces the participant's self-determination and is responsive to the participant's specific needs and preferences;
- Promote independence for participants through the provision of services meeting the highest standards of quality and national best practices, while ensuring health and welfare through a comprehensive system of participant safeguards;
- Offer an alternative to institutionalization through the provision of an array of services and supports that promote community inclusion and independence by enhancing and not replacing existing informal networks;
- Support participants and their families in exercising their rights and sharing responsibility for their programs regardless of the method of service delivery;
- Utilize personal outcome interviews and assessment tools to assist in the creation of participant-centered plans of care that reflect participant's needs and preferences;
- · Offer the participant the choice between institutional care and home and community-based services; and
- Offer the participant the choice of Self-Direction as a service delivery option for the Family Support service only.

CC Waiver services are accessed by contacting the Local Governing Entity (LGE), formerly known as the Human Services Authorities and Districts (HSA/D,Systems Entry Unit to determine if the applicants meet the Developmental Disability (DD) criteria. The LGE is the responsible entity for this role. Upon meeting criteria, the applicant's name is placed on the DD Request for Services Registry (RFSR) until a CC Waiver opportunity becomes available. When the applicant is offered the CC Waiver, he/she may accept or deny the offer. If the applicant accepts the offer, he/she chooses a support coordination agency through the Freedom of Choice (FOC) process. The support coordination agency offers FOC of direct service provider(s). Once the applicant is found eligible for waiver services, his/her initial plan of care (POC) must be approved by the LGE. All services must be prior authorized and delivered in accordance with the approved POC. If the applicant denies the offer his/her name will remain on the DD RFSR for the New Opportunities Waiver.

The Louisiana Department of Health (LDH) Bureau of Health Services Financing (BHSF) is the Single State Medicaid Agency which maintains administrative and supervisory oversight of the Children's Choice Waiver. Oversight and administrative authority within BHSF is carried out through the Medicaid Program Support and Waivers (MPSW), formerly known as the Waiver Compliance Section (WCS), with assistance from other sections within BHSF. OCDD has a Memorandum of Understanding with the Human Services Authorities and Districts, also known as the LGE's which specifies the roles and responsibilities of each party and the methods used to ensure the operating agency performs delegated waiver operations and administrative functions in accordance with the approved waiver application, rules, and policies.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: <u>Item 3-E must be completed.</u>

- A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.
- **B.** Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- **D.** Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).
- E. Participant-Direction of Services. When the State provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):
 Yes. This waiver provides participant direction opportunities. Appendix E is required.
 No. This waiver does not provide participant direction opportunities. Appendix E is not required.
- F. Participant Rights. Appendix F specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.
- **G.** Participant Safeguards. Appendix **G** describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.
- H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.
- I. Financial Accountability. Appendix I describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.
- J. Cost-Neutrality Demonstration. Appendix J contains the State's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

Α.	Comparability. The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to
	provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plant to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified
	in Appendix B.
В.	Income and Resources for the Medically Needy. Indicate whether the State requests a waiver of §1902(a)(10)(C)(i) (III) of the Act in order to use institutional income and resource rules for the medically needy (select one):
	O Not Applicable
	● No
	O Yes
C.	Statewideness. Indicate whether the State requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):
	● No
	O Yes
	If yes, specify the waiver of statewideness that is requested (check each that applies): Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this
	waiver only to individuals who reside in the following geographic areas or political subdivisions of the State.
	Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

 Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to
make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State. Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:
A
<u>V</u>

5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

- A. Health & Welfare: The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
 - 1. As specified in **Appendix C**, adequate standards for all types of providers that provide services under this waiver:
 - 2. Assurance that the standards of any State licensure or certification requirements specified in Appendix C are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,
 - 3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in **Appendix** C.
- B. Financial Accountability. The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in Appendix I.
- C. Evaluation of Need: The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.
- **D.** Choice of Alternatives: The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
 - 1. Informed of any feasible alternatives under the waiver; and,
 - 2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- E. Average Per Capita Expenditures: The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.
- F. Actual Total Expenditures: The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

- G. Institutionalization Absent Waiver: The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- **H.** Reporting: The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- I. Habilitation Services. The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.
- J. Services for Individuals with Chronic Mental Illness. The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

- A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in Appendix D. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- **B.** Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are in-patients of a hospital, nursing facility or ICF/IID.
- C. Room and Board. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- **D.** Access to Services. The State does not limit or restrict participant access to waiver services except as provided in Appendix C.
- E. Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- F. FFP Limitation. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- G. Fair Hearing: The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s)

of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

- H. Quality Improvement. The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in Appendix H.
- I. Public Input. Describe how the State secures public input into the development of the waiver:

 The Louisiana Department of Health (LDH) receives input through a taskforce workgroup comprised of stakeholders such as, waiver participants, parents and/or family members, other DHH agencies, providers of services, State and Regional Offices, Local Governing Entities, Supports and Services Center, professional and grassroots advocacy groups, and other interested parties. On an informal basis, OCDD reviews comments and suggestions from stakeholders that impact this waiver.
- J. Notice to Tribal Governments. The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
- K. Limited English Proficient Persons. The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 August 8, 2003). Appendix B describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

Attachment #1: Trans Check the box next to a Replacing an app Combining waive Splitting one waiv Eliminating a serv Adding or decreas Adding or decreas Reducing the und Adding new, or do Making any chang waiver under 191: Making any chang	ny of the following changes from the curoved waiver with this waiver. rs. rer into two waivers. vice. sing an individual cost limit pertainin sing limits to a service or a set of servicuplicated count of participants (Factorecreasing, a limitation on the number ges that could result in some participates (S(c) or another Medicaid authority. ges that could result in reduced services	ices, as specified in Appendix C. or C). of participants served at any point in time. ants losing eligibility or being transferred to another
Specify the transition pl	an for the waiver:	

Transition at Age 19:

As long as a participant remains eligible for waiver services, when the individual reaches age 19 he/she will transfer to an appropriate home and community-based waiver for adults who meet the level of care requirements for an Intermediate Care Facility for the Developmentally Disabled (ICF/DD). Support coordinators must begin the transition process no less than 90 days prior to the participant's 19th birthday. Participants in the ABA reserved capacity group will not automatically transfer to a waiver slot for adults upon reaching their 19th birthday.

The transition process begins with a face-to-face meeting in the participant's home. The support coordinator requests and gathers current medical, social, educational and psychological documentation necessary to complete the plan of care (POC).

The Support Coordinator will request a current Statement of Eligibility/Statement of Approval (SOE/SOA) from the LGE. If SOA/SOE is expired, the Support Coordinator will request eligibility redetermination prior to transition.

The Support Coordinator will schedule an appointment to complete the Supports Intensity Scale (SIS) and the Louisiana Plus (LA PLUS). The SIS/LA PLUS must be completed, submitted for review to the SIS Project Office, at least sixty (60) days prior to participant's 19th birthday. It is important that SIS/LA PLUS forms are completed and submitted promptly according to schedule so that planning and services are not delayed.

Once all information is gathered, the Support Coordinator develops the plan of care through a collaborative process involving the participant, family, friends, other support systems, appropriate professionals/service providers and others who know the participant best. The plan of care is finalized and signed by the participant, parent/guardian, provider and others who attended the plan of care meeting.

The Support Coordinator completes form 148 (Medicaid Notification of Change) and delivers the form 148 and plan of care with all documentation to the LGE to process transition as per OCDD's policy.

If the participant does not continue to meet the eligibility requirements for waiver services, the participant will be notified immediately, given appeal rights and, if needed, referred to other service options.

Transition of the ABA Chisholm Class Members to the Medicaid State Plan:

All Chisholm Class Member participants have transitioned out of the Children's Choice waiver and into the Medicaid State Plan (SPA) effective May 1, 2014 and all providers have been licensed, therefore the State is removing the reserved capacity group (Chisholm class members who are diagnosed with Pervasive Developmental Disorder (PDD) or Autism Spectrum Disorder (ASD) and are in need of Applied Behavioral Analysis (ABA) services) from the Children's Choice Waiver. These children were only receiving ABA services through the CC waiver, therefore removing them will not affect any other services. The State only had one child in the CC waiver who was not a Chisholm class member and was receiving ABA. That child is now receiving ABA services through the SPA. ABA services will also be removed from Children's Choice waiver with the renewal of this application.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301 (c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required. Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

The revised Statewide Transition Plan will be submitted to CMS by September 30, 2016 for Initial Approval. The revised STP will include completed systemic assessment and results of provider self-assessments and will be posted for public comment online and via newspaper on August 15, 2016. Comments are due September 15, 2016 and will be incorporated into the STP in detail and summary forms.

Stakeholder Engagement

- 4/7/16-State Office assisted Central Louisiana Human Services District (region 6 local office) with completing site visit at a service provider day program.
- Technical assistance provided to Florida Parishes Human Services Authority (region 9 local office) regarding validation visits.
- 4/11/16-State Office assisted South Central Louisiana Human Services (region 3 local office) with completing site visit as service provider day program
- 4/15/16-Coordinated Social Security Presentation/broadcast with the CWICs
- 4/20/16-State Office assisted South Central Louisiana Human Services (region 3 local office) with completing site visit at service provider day program
- 4/19, 4/25, and 5/16-Stakeholder workgroup regarding person centered planning and format options.
- 4/26/16-Presentation with Families Helping Families in Jefferson Parish about CMS rule/changes
- 4/27/16-HCBS quarterly planning progress meeting
- 5/3/16-Meeting with Support Coordination Alliance regarding Individual Experience Survey
- 5/3/16-State Office assisted Florida Parishes Human Services Authority (region 9 local office) with completing site visit for day program service provider.
- 5/10-5/12-State Office assisted Northwest Louisiana Human Services District (region 7 local office) with completing site validation visits for day program providers.
- 5/16/16-State Office assisted Florida Parishes Human Services Authority (region 9 local office) with completing site visit with day program service provider.
- 6/8/16-State Office assisted Capital Area Human Services (region 2 local office) with completing site visit with day program service provider
- 5/24/16-Work Pays meeting
- 5/27/16-5/30/16-State Office assisted Northeast Human Service Authority (region 8 local office) with completing site visits for multiple day program and residential service provider agencies.
- 6/14/16-Update provided regarding STP at a meeting with the Louisiana Council of Executives.
- 6/22/16-Update provided regarding STP for DD Council report
- Presentation at South Central Louisiana Human Services Authority quarterly provider meeting regarding STP progress. OCDD will continue to provide technical assistance to all service provider agencies as requested (will partner with LGE offices where appropriate)

LDH Interagency STP Activities

- 4/4/16-OCDD met internally to discuss Individual Experience Survey.
- 4/27/16-HCBS quarterly planning progress meeting
- 5/5/16-OCDD met internally to discuss validation visit progress.
- 5/9/16-STP cross office workgroup met to discuss and plan for STP resubmission
- \bullet 5/10/16-STP cross office workgroup met to discuss systemic assessment with consultant and determine next steps in terms of formatting information for resubmission with STP
- 6/7/16, 6/14 and 6/20/16-OCDD and Medicaid meetings to discuss NOW renewal-discussions including incorporation of language associated with HCBS rule.
- 6/22/16 and 6/27/16-OCDD met internally to discuss changes to be included in NOW renewal
- 6/23/16-STP workgroup met with consultant to prep for phone conference with CMS -TA call related to addressing all areas to receive initial approval on STP
- 6/24/16-TA call with CMS team regarding resubmission of STP

Systemic Assessments

The Office for Citizens with Developmental Disabilities (OCDD) is in the process of completing systemic assessments and post for public comment on August 15, 2016.

Provider Self-Assessments and Site Visits

As of June 30, 2016, OCDD and the Local Governmental Entities (LGEs) continued to follow up on obtaining provider agency's self-assessments. OCDD is currently in the process of consolidating a report identifying any remaining providers that have not complied with the request for completing the self-assessment. OCDD will take appropriate action to address

this non-compliance.

Site visits will be staggered and will occur throughout the end of 2016. LGE's will provide OCDD status updates related to progress on site visits/desk audits. OCDD is also planning to establish ongoing conference calls with the LGE offices to identify and address issues/concerns as we go through this process.

OCDD is currently beginning the process of analyzing the findings from provider self-assessments and site visits. Throughout the provider self-assessment and site validation visits, settings that require heightened scrutiny will be identified.

Participant Survey

A participant survey was developed to measure satisfaction and the participant's overall experiences as they relate to the HCBS Settings Rule. Information collected will be used to validate information reported by provider agencies via self-assessments and site visits. Self-advocates, family members, etc. provided input in the development of the survey. The survey was posted online for public comment and modifications were incorporated into the survey based on the comments. Training was provided on the participant survey May 25, 2016 – May 31, 2016 and the survey was then distributed on June 1, 2016. Participant surveys will be completed in two phases: Phase 1 was completed July 25, 2016 and Phase 2 will be completed by December 31, 2016. Analysis of participant survey findings is ongoing through the end of 2016.

Additional Needed Information (Optional) Provide additional needed information for the waiver (optional): Appendix A: Waiver Administration and Operation 1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one): The waiver is operated by the State Medicaid agency. Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one): The Medical Assistance Unit. Specify the unit name: (Do not complete item A-2) Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit. Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency. (Complete item A-2-a). The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency. Specify the division/unit name:
ppendix A: Waiver Administration and Operation
 State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one):
O The waiver is operated by the State Medicaid agency.

policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

The State Medicaid Agency, PUSE and the operating agency OCDD, have a Memorandum of

The State Medicaid Agency, BHSF, and the operating agency OCDD, have a Memorandum of Understanding (MOU) defining the responsibilities of each. The MOU is to be reviewed yearly and updated as necessary. To ensure compliance with federal regulations governing waivers, BHSF created the Medicaid Program Support and Waivers (MPSW) to oversee the administration of all Medicaid waiver programs within Louisiana. Monitoring is completed under the direction of the MPSW Program Manager.

BHSF and OCDD have a common and concurrent interest in providing Medicaid eligible individuals access to waivers and other identified services through qualified providers, while ensuring the integrity of the Medicaid program is maintained. The interagency agreement requires BHSF and OCDD to:

- 1. meet quarterly to evaluate the waiver program and initiate necessary changes to policy and/or reimbursement rates
- 2. meet quarterly with the Division of Health Economics to review the financial accountability reports for the waiver program

BHSF through MPSW facilitates monthly meetings with OCDD and the Medicaid data contractor to discuss waiver issues and problems. At these meetings, solutions are formed, corrective action agreed upon, and follow-up implemented by OCDD as necessary. In addition, meetings are held at least quarterly with MPSW, the Medicaid Director or Deputy Director, the OCDD Assistant Secretary, and other designated staff to discuss problems, issues, planning, concerns, and any other matters concerning the waiver as necessary. Variance meetings are also held monthly with OCDD, LDH's Division of Health Economics, and MPSW to review financial utilization and expenditure performance of all OCDD waivers.

BHSF retains oversight of all waiver operations and administrative functions performed by the operating agency. In furtherance of carrying out the interagency agreement and under the authority of BHSF, the following activities occur:

- 1. Disseminate information concerning the waiver to potential enrollees. Frequent and regular meetings are held between OCDD and MPSW where proposed changes are discussed prior to OCDD developing drafts. Drafts are submitted to MPSW for their input and suggestions. Revisions are made accordingly until a final draft is completed for Medicaid review and approval. As needed, MPSW will participate in training conducted by OCDD when implementing changes with providers. BHSF develops and distributes brochures, flyers, and other informational material regarding available programs to Louisiana citizens. BHSF oversees the website information, as well as communication distribution via Help Lines regarding waiver eligibility and policy administration.
- 2. Assist individuals in waiver enrollment BHSF maintains supervision by approving the process for entry of individuals into the waiver through the LGE and post-linkage procedures carried out by the Medicaid Data Contractor.
- 3. Manage waiver enrollment against approved limits BHSF receives bi-weekly reports from the Medicaid

data contractor which identify the number of participants receiving services, exiting the waiver, and offered a waiver opportunity. This report is reviewed with OCDD during the bi-weekly meetings. Other reports which are received by both BHSF and OCDD include waiver closure summary reports, admissions summary reports, level of care intake, acute care utilization, and waiver expenditures.

- 4. Monitor waiver expenditures against approved limits OCDD is responsible for completing the annual CMS-372 report utilizing MMIS data and submitting it to BHSF for review and approval. Quarterly meetings with BHSF, OCDD, and the Division of Health Economics are held to discuss waiver administration and to review financial participation and budget forecasts in order to determine if any adjustments are needed.
- 5. Conduct level of care evaluation activities OCDD is responsible for submitting aggregated reports on level of care assurances to BHSF on a quarterly basis. In addition, the Medicaid data contractor submits reports to BHSF on the number of initial enrollees who meet the required level of care prior to receipt of services and the number of participants who received a redetermination at least annually.
- 6. Review participant plans of care to ensure that all waiver requirements are met OCDD is responsible for submitting aggregated reports on plan of care assurances to BHSF on an established basis. In addition, the Medicaid data contractor submits reports to BHSF on the number of plans of care updated/revised at least annually, number of participants who received all types of services specified in their plan of care, and number of participants who received services in the amount, frequency, and duration specified in the plan of care.
- 7. Prior authorize waiver services BHSF oversees OCDD exercise of prior authorization activities through reports issued by the Medicaid data contractor. Meetings are held with BHSF, OCDD, and the Medicaid data contractor to discuss any issues relevant to prior authorization. BHSF ensures waiver services are authorized and utilized in conformance to waiver requirements through the annual monitoring conducted during the licensing surveys and random audits of the plans of care. System changes related to claims processing and prior authorization can only be facilitated by BHSF.
- 8. Determine waiver payment amounts or rates BHSF determines all waiver payment amounts/rates in collaboration with OCDD, Division of Health Economics, and as necessary the Rate & Audit section.
- 9. Conduct training and technical assistance concerning waiver requirements. The Medicaid fiscal intermediary conducts annual training related to Medicaid requirements with prior approval from BHSF on all material. BHSF also reviews all OCDD waiver policies and satisfaction survey results as it relates.

LDH Health Standards Section conducts all licensing surveys of providers that render waiver services.

Among the numerous reports generated by the Medicaid data contractor and provided to BHSF/MPSW for oversight are the following: number of individuals linked to each support coordination agency by waiver; waiver offers in process but not yet certified; number of participants assigned to each support coordinator; direct service workers report; number of waiver closures by type; timeliness of annual plans of care; tracking timeliness, accuracy, and approval of plans of care; pre and post authorization report; individuals listed on the Request for Services Registry; waiver offers made and accepted; days from linkage to support coordination agency to plan of care submission and approval; authorized and released amounts for waiver caps; authorized and released amount by procedure codes; and unduplicated waiver counts.

These reports disclose the status of the waiver operation on a day-to-day basis. Reports may reveal such things as whether or not the plans of care are being performed timely and appropriately, as defined by policy. Training reports provide information on frequency and attendance. Other reports provide information on waiver utilization. By review of these reports and meetings with the operating agency, BHSF exercises administrative authority by seeking information and solutions on discrepancies, areas needing improvement, as well as observing areas that are working well in the waiver on a day-to-day basis.

Additionally, MPSW receives monthly Program Integrity reports for aberrant billing practices and enrollment, as well as ongoing reports from Health Standards regarding provider licensing and certification, and annual reports on waiver monitoring.

MPSW reviews the reports from the operating agency, fiscal agent, point of entry contractor, and data contractor to determine if the results indicate areas of non-compliance. MPSW will pursue a series of corrective actions including requiring or conducting additional training and increasing the level of departmental involvement in the decision-making process.

There are several cross agency workgroups which have been formed in order improve the Quality

Improvement System within all Medicaid Waivers.

The Cross-Waiver Executive Management Team meeting are held monthly with the Medicaid Director, Deputy Medicaid Director, MPSW,OCDD Assistant Secretary, OAAS Assistant Secretary and other relevant staff to discuss planning, budgetary matters, compliance issues, technical assistance, and other issues that affect the Medicaid waivers. This group serves to: adopt quality standards and measures for HCBS Waivers; oversee the performance of the HCBS waivers to assure their effectiveness, efficiency, and integration; evaluate performance reports; take action on recommendations from other Cross-Waiver Quality Teams/Workgroups; and trouble shoot critical issues.

The Cross-Waiver Stakeholder Advisory Committee meets twice a year and includes members of MPSW, State Operating Agencies, consumer, providers, and advocates. In these meetings, HCBS quality measures are identified and assessed for updates, performance data is evaluated, and quality improvement initiatives are advised.

The Cross-Waiver Quality Review Team meets every other month and is composed of quality, programmatic and IT representatives from the Program Offices, Medicaid, and LDH IT. This team reports to the Cross-Waiver Executive Management Team. Among other things, the team serves to: integrate waiver polices, review drafted policies and other reports related to HCBS waivers that assure consistency with quality standards; share information regarding best practices; design, generate, and review comparative performance reports; collaborate on joint policy for rules, issues, policies for Support Coordination, Direct Service Providers, and Critical Incident Reporting.

Appendix A: Waiver Administration and Operation

- 3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):
 - Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).

Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6.:

The Medicaid data contractor tracks data on plans of care, such as date the initial plan is submitted and approved, date the annual plan of care is approved, date the plan of care is received by the LGE; tracks support coordination, provider services, waiver slots both occupied and vacant, tracks information on time lines, offerings of waiver opportunities and linkages to support coordination agencies, tracks the waiver certification process; provides prior authorization functions; maintains the Request for Services Registry; issues freedom of choice forms to the participant/family members to select a support coordination agency, collects data from providers, and provides notification to providers.

The fiscal/employer agent ensures that participants prior authorized service limits for self-directed services are not exceeded beyond the waiver cap; processes employer-related payroll and necessary taxes on behalf of Self-Direction participants.

O No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver

Appendix A: Waiver Administration and Operation

oper	ational and administrative functions and, if so, specify the type of entity (Select One):
•	Not applicable
\bigcirc	Applicable - Local/regional non-state agencies perform waiver operational and administrative functions.
	Check each that applies:
	Local/Regional non-state public agencies perform waiver operational and administrative functions at the
	local or regional level. There is an interagency agreement or memorandum of understanding between
	the State and these agencies that sets forth responsibilities and performance requirements for these agencies
	that is available through the Medicaid agency

Local/Regional non-governmental non-state entities conduct waiver operational and administrative
functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity sets forth the responsibilities and performance requirements of the local/regional entity. The contract under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

The Louisiana Department of Health (LDH) Bureau of Health Services Financing (BHSF), with input from the operating agency, is responsible for assessing the performance of the data contractor, support coordinator, and fiscal agent.

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

The MPSW monitor tracks and reviews data reports generated by the Medicaid Data Contractor on a quarterly basis. The reports include tracking volume, timelines, and deliverables for the previous months. Reports also include support coordination linkages, period of time between linkage and service delivery, number of new and closed support coordination linkages, and other summary statistics. The previous month's billing information is also included in the report so that report and invoice are linked together.

In addition, the data contractor submits a breakdown of staff resources allocated to the contract. The MPSW staff meets with the Contractor at least monthly to review performance and adherence to the terms of the contract.

Fiscal Agent - The fiscal agent is required to submit monthly reports to BHSF and OCDD for review and to monitor fiscal management activities. BHSF and OCDD perform on-going monitoring of the fiscal agents claims payment activities, billing history, and adherence to the terms of the contract. OCDD provides BHSF with any data, complaints, or other information obtained from any source regarding the fiscal agents performance.

In addition, BHSF utilizes the annual participant-satisfaction survey data gathered by the fiscal agent to monitor participant's satisfaction with the fiscal agent. In instances of non-compliance, BHSF will require a corrective action plan from the fiscal agent and will monitor implementation.

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (check each that applies):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency.

Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

A.a.i.1. Number and percentage of agreed upon waiver assurance trend and data reports that were submitted timely, by the operating agency/contractor, as defined by

b. Methods for Remediation/Fixing Individual Problems

ii.

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
 - A variety of mechanisms are employed by MPSW to ensure all issues with the operating agency/contractor's performance are remediated:
 - 1. MPSW meets with contractors and operating agency staff on an on-going, established basis to discuss delegated functions, pending issues, and remediation plans. Individual issues requiring remediation will be referred back to the operating agency and/or contractor for correction. MPSW will monitor to ensure remediation activities are completed to address any identified areas of non-compliance within 30 days of notification. Systemic issues requiring remediation will be identified and discussed at the Cross Waiver (which includes staff from MPSW, OAAS, and OCDD) and Medicaid Oversight Review Team (which includes Medicaid staff) meetings. A plan for remediation and person responsible will be developed for each item identified. Remediation strategies and progress towards correction will be reviewed and documented at the next scheduled meeting.
 - 2. MPSW, the Medicaid Director or Deputy Director, the OCDD Assistant Secretary, and other pertinent staff meet on at least a quarterly basis to discuss any pending issues and remediation plans.

The limit sp	-	State is <i>(select one)</i> 00% of the institutional average	· .					
The limit sp	-	00% of the institutional average	·.					

	Specify:
0	Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.
•	Cost Limit Lower Than Institutional Costs. The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.
	Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.
	The Children's Choice waiver targets individuals who are expected to have additional support from the family and from other public services, such as EPSDT State Plan services that will ensure the health and welfare of the participant, as based on the Plan of Care.
	An individual cap on waiver expenditures of \$16,410 per plan of care year.
	The service year begins with the effective date of the participant's approved Plan of Care. In the event that a catastrophic change in circumstances occurs after waiver eligibility is established, crisis support may be prior authorized until other arrangements can be made, up to one year total. Crisis support outside of the annual waiver cap of \$16,410 may be approved by OCDD State Office. All medically necessary services identified under section 1905(a) will be provided under Early Periodic Screening Diagnosis and Treatment (EPSDT). As these services are EPSDT state plan services they are: 1) not subject to the \$16,410 cap, and 2) must be provided whenever medically necessary irrespective of whether or not the child is in crisis.
	BHSF and OCDD analyze utilization reports, crisis requests, emergency waiver requests, requests to be added back to the request for services registry, and stakeholders' input to identify trends and patterns that would justify an increase in the dollar amount. This information is reviewed at least annually or as identified through other sources, to determine if the individual cost limit needs to be adjusted to support the health and welfare of this population, by submitting an amendment to CMS.
	The cost limit specified by the State is (select one):
	The following dollar amount:
	Specify dollar amount: 16410
	The dollar amount (select one)
	O Is adjusted each year that the waiver is in effect by applying the following formula:

	O Other:

S	Specify:	
		A
L		V

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

The Plan of Care (POC) is developed for the child during the application process concurrently with waiver eligibility by the Support Coordination Agency and anyone else the participant/family chooses to participate. The Initial POC must be approved by the Local Governing Entity (LGE) staff to assure the participant's health and welfare and ensure that the participant meets the ICF/DD level of care (LOC) to be eligible for waiver participation. Health and welfare are assured by the combination of Medicaid services, Louisiana Children's Choice Waiver services, school services, and other supports received through natural and community resources.

If an individual is denied admission to the waiver they are provided with written notification of the denial and the opportunity to request a fair hearing as described below.

The "Adequate Notice of Home and Community- Based Services (Waiver) Decision" (Form 18-W) which specifies the reason(s) for the denial is used to notify individuals by mail if they have not been approved for Home and Community - Based Waiver services. A separate page is attached entitled "Your Fair Hearing Rights". This page contains information on how to request a fair hearing, how to obtain free legal assistance and a section to complete for requesting a fair hearing.

In accordance with Louisiana Revised Statutes 46:107 Appeal Procedure, a person may file an administrative appeal to the Division of Administrative Law - Health and Hospitals Section regarding the following determinations:

- 1) A finding by the office that the person does not qualify for system entry;
- 2) A denial of entrance into a HCBS waiver
- 3) A reduction of services;
- 4) Termination of a support or service;
- 5) Discharge from the developmental disabilities service system; and/or
- 6) Other cases as stated in office policy or as promulgated in regulation.

The Louisiana Medicaid Eligibility Manual states, every applicant for and participant of Louisiana Medicaid benefits has the right to appeal any agency action or decision and has the right to a fair hearing of the appeal in the presence of an impartial hearing officer". (Medicaid Eligibility Manual, T-100/Fair Hearings/General Information).

All Administrative Hearings are conducted in accordance with the Louisiana Administrative Procedure Act, La. R.S. 49:950 et seq. Any party may appear and be heard at any appeals proceeding through an attorney at law or through a designated representative

- c. Participant Safeguards. When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (check each that applies):
 - The participant is referred to another waiver that can accommodate the individual's needs.
 - Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

Families must choose to either accept services in the Louisiana Children's Choice Waiver or remain on the DD Request for Services Registry. This is an individual decision based on a family's current circumstances. A family that chooses Louisiana Children's Choice Waiver may later experience a crisis that increases the need for paid supports to a level that cannot be accommodated within the cap on waiver expenditures. A crisis is

defined as a catastrophic change in circumstances rendering the natural and community support system unable to provide for the health and welfare of the child at the level of benefits offered under Louisiana Children's Choice Waiver. The following procedure has been developed to address these situations.

To be considered a crisis, one of the following must apply:

- Death of caregiver with no other supports (i.e., other family) available.
- Caregiver incapacitated with no other supports (i.e., other family) available.
- Child is committed by court to DHH Custody.
- Other family crisis with no caregiver support available, such as abuse/neglect, or a second person in the household becomes disabled and must be cared for by same caregiver, causing inability of the natural caregiver to continue necessary supports to assure health and welfare.
- When the physician documented condition of the child deteriorates to the point the plan of care is inadequate.

Exhausting available funds through the use of therapies, environmental accessibility adaptations, and specialized medical equipment and supplies does not qualify as justification for crisis designation.

If the participant meets the criteria for a crisis, additional family support services outside the waiver cap amount may be approved by the OCDD State Office.

When the crisis designation (i.e. situation meets crisis designation requirements) is extended at the end of the initial duration (or at any time thereafter), the family may request the option of returning the child's name to the DD Request for Services Registry with their original date of request if it is determined that the loss of caregiver and lack of natural or community supports will be long-term or permanent. The child will continue to receive the Children's Choice Waiver until an appropriate waiver becomes available. OCDD State Office will make this final determination.

Other safeguard(s)

Specify:

Determining Non-Crisis Designation:

In addition to satisfying crisis provisions, a participant may also be allowed to restore his or her name to the RFSR for the New Opportunities Waiver (NOW) in original date order in a "non-crisis provision - other good cause criteria" when all of the following four criteria are met:

- The participant would benefit from services, that are available through the NOW, which are not available through his/her current waiver or through Medicaid State Plan Services, AND
- The participant would qualify for those services, under the standards utilized for approving and denying services to the NOW participants, AND
- There has been a change in circumstances, since his or her enrollment in the Children's Choice waiver causing these other services to be more appropriate. A change in the participant's medical condition is not required. A change in circumstance can include the loss of in-home assistance through a caretaker's decision to take on or increase employment, or to obtain education or training for employment. The temporary absence of a caretaker due to a vacation is not considered "good cause", and
- The person's request date for the NOW has been passed on the RFSR.

Adding the participant back to the RFSR will allow him/her to be offered the next available waiver slot based on his/her original date of request so that the appropriate services can be provided. The participant must still meet criteria for an ICF/DD level of care when a slot becomes available.

A participant's being added back to the RFSR does not require that the DHH immediately offer him/her a waiver slot if all slots are filled. It does not require that DHH make available to this participant a slot for which another participant is being evaluated even if the other participant was originally placed on the RFSR on a later date.

Children's Choice waiver services will not be terminated due to the fact that a participant's name is re-added to the registry for "good cause." The burden of proof for "good cause" (non-crisis designation) is the responsibility of the participant.

If another developmental disability waiver would provide the participant with the needed services, LDH may enroll the participant in any waiver that would provide the appropriate services as referenced in criteria for non-crisis designation/other good cause.

If a Children's Choice participant's eligibility is terminated based on inability to assure health and welfare of the waiver participant, LDH will restore the person to the RFSR for the NOW in his/her original date order.

Under regulations and procedures applicable to Medicaid fair hearings, Children's Choice participants have the right to appeal any determination of DHH as set forth in the non-crisis provisions.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year

Unduplicated Number of Participants

Year 1

1700

Year 2

1700

Year 3

1700

Year 4

1700

Year 5

- b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (select one):
 - The State does not limit the number of participants that it serves at any point in time during a waiver year.
 - O The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

Waiver Year

Waiver Year

Maximum Number of Participants
Served At Any Point During the Year

Year 1

Year 2

Year 3

Year 4

Year 5

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

- c. Reserved Waiver Capacity. The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):
 - O Not applicable. The state does not reserve capacity.
 - The State reserves capacity for the following purpose(s).

Purpose(s) the State reserves capacity for:

Purposes	П
20 Children's Choice Waiver Opportunities will be available to children who participate in the Money Follows the Person (MFP) Rebalancing Demonstration.	
425 Children's Choice waiver opportunities for children who meet state-funded family support priority level one or two.	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

20 Children's Choice Waiver Opportunities will be available to children who participate in the Money Follows the Person (MFP) Rebalancing Demonstration.

Purpose (describe):

Twenty opportunities exist to support the administration of the MFP Rebalancing Demonstration, a federal demonstration program awarded by the Centers of Medicare and Medicaid Services to the Bureau of Health Services Financing (BHSF; Louisiana Medicaid) in partnership with OCDD. The demonstration is a transition program that targets individuals using qualified institutional services to move to home and community-based long-term care services.

Describe how the amount of reserved capacity was determined:

OCDD identifies children currently residing in nursing facilities that fit into the Children's Choice age range and meet the definition of developmental disability. OCDD conducts an analysis on the trend of referrals to nursing facilities of children in the Children's Choice age range, including children for whom alternative placement was accomplished to divert nursing facility placement. The annual totals of this analysis are reflected in the transition targets for the MFP Rebalancing Demonstration. The total number of children proposed is twenty (20). This 20 is reflective of both children residing in nursing facilities at the time of the analysis and anticipated referrals throughout the demonstration term.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	20
Year 2	20
Year 3	20
Year 4	20
Year 5	20

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

425 Children's Choice waiver opportunities for children who meet state-funded family support priority level one or two.

Purpose (describe):

The OCDD is allocating a portion of existing state-funded Act 378 Family Support dollars, which were earmarked to support children and families with developmental disabilities in need towards funding an additional 425 Children's Choice waiver opportunities. This activity leverages existing state dollars to maximize federal funding in order to increase access to more community-based services for children with developmental disabilities and reduce existing waiting lists. This activity also promotes cost-effectiveness and higher quality services, tailored to children's needs at existing funding levels. Finally, this activity is in line with the Louisiana's Health Care Goal of: "Better Health and More Affordable Care" as well as its Indicator #1 of: "Optimizing the use of community-based care while decreasing reliance on more expensive institutional care."

The 425 Children's Choice Waiver opportunities is a specific allocated population of qualifying children with developmental disabilities that are in need of more services than they are currently able to receive through state-funded family support services. These children will benefit by being able to receive additional services through a Children's Choice Waiver opportunity.

Describe how the amount of reserved capacity was determined:

These 425 children have been identified by the LGE as meeting the criteria for state-funded family support priority level 1 and 2 and needing more family support services than what they are currently able to receive through state-funded family support services. Each LGE has a specific number of these waiver opportunities that will be allocated to them. There are four priority levels assigned by the LGE to children requesting State-Funded Family Support services. Only children currently receiving or eligible to receive State-Funded Family Support services that meet priority levels 1 or 2 are included in this group of 425 children. Below are the criteria used to identify the children who are assigned a priority level 1 or 2:

- •Priority Level 1- Without the requested supports, there is an immediate or potential threat of out-of-home placement or homelessness due to:
 - o the individual's medical care needs.
 - o documented abuse or neglect of the individual,
 - o the individual's intense or frequent challenging behavioral needs,
 - o death or inability of the caregiver to continue care due to their own age or health, or
- o the possibility that the individual may experience a health crisis leading to death, hospitalization, or placement in a nursing facility.
- \bullet Priority Level 2 Supports are needed to prevent the individual's health from deteriorating or the individual from losing any of their independence or productivity.

In the event that one of these opportunities is vacated, the opportunity will be returned to the allocated pool for that LGE for another opportunity to be offered.

Each LGE has collaborated with OCDD State Office on this plan and have identified the number of children in their respective region that meets the established criteria. OCDD has also collaborated with Medicaid and consulted with the Developmental Disabilities Council and other stakeholders on agreement with this plan.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	425

Waiver Year	Capacity Reserved
Year 2	425
Year 3	425
Year 4	425
Year 5	425

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

- **d.** Scheduled Phase-In or Phase-Out. Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (select one):
 - The waiver is not subject to a phase-in or a phase-out schedule.
 - O The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.
- e. Allocation of Waiver Capacity.

Select one:

- Waiver capacity is allocated/managed on a statewide basis.
- O Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

waiver:

In accordance with Louisiana Register Volume 28, No. 09, September 20, 2002; Title 50 PUBLIC HEALTH -MEDICAL ASSISTANCE Part XXI. Home and Community Based Services Waivers, Subpart 9. Children's Choice Chapter 111. Eligibility §11101. Waiver Availability

In accordance with Louisiana Register Volume 28, No. 09, September 20, 2002, the order of entry is first come, first served from a statewide waiting list known as the Request for Services Registry (RFSR) arranged by date of application for Developmentally Disabled (DD) waiver services, with the exception of the 20 CC Waiver opportunities that are available to children who participate in the Money Follows the Person (MFP) Rebalancing Demonstration and the 425 CC Waiver opportunities for children who meet state-funded family support priority level one or two. By accepting a CC waiver opportunity, the person's name shall be removed from the registry. The number of participants is contingent on available funding.

As enacted through R.S. 28:827 Act No. 286 of the 2010 Regular Legislative Session, any active duty member of the armed forces who has been temporarily assigned to work outside of Louisiana and any member of his/her immediate family who was qualified for and was receiving Louisiana Medicaid Waiver services for individuals with developmental disabilities at the time they were placed on active duty will be eligible to receive the next available waiver opportunity upon the individual's resumed residence in Louisiana.

Appendix B: Participant Access and Eligibility
B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR 8435.217: Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR \$435.217 group effective at any point during this time period. Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses spousal post-eligibility rules under §1924 of the Act. Complete Items B-5-e (if the selection for B-4-a-i is SSI State or \$1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018. Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one). O Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State elects to (select one): Use spousal post-eligibility rules under §1924 of the Act. (Complete Item B-5-b (SSI State) and Item B-5-d) Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State) (Complete Item B-5-b (SSI State). Do not complete Item B-5-d) Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse. (Complete Item B-5-b (SSI State). Do not complete Item B-5-d) Appendix B: Participant Access and Eligibility B-5: Post-Eligibility Treatment of Income (2 of 7) Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018. b. Regular Post-Eligibility Treatment of Income: SSI State. The State uses the post-eligibility rules at 42 CFR 435.726. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income: i. Allowance for the needs of the waiver participant (select one): The following standard included under the State plan Select one: O SSI standard Optional State supplement standard O Medically needy income standard • The special income level for institutionalized persons (select one):

and the second was been been the second of the second	3-5: Post-Eligibility Treatment of Income (4 of 7)
Note: The follo	wing selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly

income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

	i. Minimum number of services.	
	The minimum number of waiver services (one or more) that an individual must require in order to be	
	determined to need waiver services is: 1	
	ii. Frequency of services. The State requires (select one):	
	The provision of waiver services at least monthly	
	igcirc Monthly monitoring of the individual when services are furnished on a less than monthly basis	
	If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:	

b.	Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (select one):	
	O Directly by the Medicaid agency	
	By the operating agency specified in Appendix A	
	O By an entity under contract with the Medicaid agency.	
	Specify the entity:	
		 Ng
	Other	j¢.
	Specify:	
		\ \ \
c.	Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:	p'
	The Level of Care initial evaluation is completed by a Medical Certification Specialist 1 or 2.	
	The basic qualifications of the Medical Certification Specialist 1 (MCS-1) are as follows:	
	A baccalaureate degree plus three years of professional level experience in nursing, pharmacy, dietetics/nutrition, physical therapy, occupational therapy, or medical technology, or surveying health or social service programs or facilities for compliance with state and federal regulations. A current valid Louisiana license in one of the qualifying fields will substitute for the required baccalaureate degree. A master's degree in one of the qualifying fields will substitute for a maximum of one year of the required experience.	ıg
	The MCS-2 must be followed by four years of professional level experience, rather than the three years of professional experience.	
d.	All activities are supervised by individuals with education, experience, and training in the diagnosis of MR/DD. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency of the operating agency (if applicable), including the instrument/tool utilized.	r
	The level of care criteria, in accordance with Louisiana Revised Statue Chapter 4-A, Title 28:451.2 (R.S. 28:380.2) repealed by legislation of Act 128 effective June 22, 2005) is as follows: RS 28:451.2. Definitions:	

(12) Developmental Disability means either:

(a) A severe chronic disability of a person that:

- (i) Is attributable to an intellectual or physical impairment or combination of intellectual and physical impairments.
 - (ii) Is manifested before the person reaches age twenty-two.
 - (iii) Is likely to continue indefinitely.
 - (iv) Results in substantial functional limitations in three or more of the following areas of major life activity:
 - (aa) Self-care
 - (bb) Receptive and expressive language.
 - (cc) Learning.
 - (dd) Mobility.
 - (ee) Self-direction.
 - (ff) Capacity for independent living.
 - (gg) Economic self-sufficiency.
 - (v) Is not attributed solely to mental illness.
- (vi) Reflects the person's need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services which are of lifelong or extended duration and are individually planned and coordinated.
- (b) A substantial developmental delay or specific congenital or acquired condition in a person from birth through age nine which, without services and support, has a high probability of resulting in those criteria in Subparagraph (a) of this Paragraph, later in life that may be considered to be a developmental disability."

The Medicaid Bureau of Health Services Financing (BHSF) form 90-L is used to determine the ICF/DD Level of Care. The individual's primary care physician must complete, sign and date the 90-L. This form must be completed at initial evaluation and annually thereafter to determine if the individual continues to meet the ICF/DD level of care. The 90-L is used in conjunction with the Statement of Approval (SOA) to establish a level of care criteria and to assist with completion of the Plan of Care. SOA is a notification to an individual who has requested waiver services that it has been determined by the LGE that they meet the developmental disability criteria (Developmental Disability Law- La. R.S. 28:451) for participation in programs administered by OCDD and that they have been placed on the Request for Services Registry for waiver services with their protected date of request. The 90-L, SOA and plan of care documents are submitted by the Support Coordination Agency to the LGE for staff review to assure that the applicant/participant meets/continues to meet the level of care criteria.

The Developmental Disability (DD) decision is made by the LGE utilizing the systems entry process. If the individual is determined to meet the DD criteria they are issued a Statement of Approval (SOA), if they do not meet the DD criteria they are issued a Statement of Denial (SOD). Individuals who receive a SOD are informed of their rights to appeal and are provided information regarding the appeals process. Please refer to Fair Hearings/Appeals process as outlined in Appendix F-section F-1 of the waiver document.

The LGE staff conducts a pre-certification home visit to verify accuracy of level of care for all initial evaluations only.

- e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):
 - The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
 - A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

f. Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The Medicaid Bureau of Health Services Financing (BHSF) form 90-L is used to determine the ICF/DD Level of Care. The participant's primary care physician must complete, sign and date the 90-L. This form must be completed at initial evaluation and annually thereafter to determine if the participant continues to meet the ICF/DD level of

care. The 90-L is used in conjunction with the SOA to establish a level of care criteria and to complete the plan of care. The 90-L, SOA and plan of care documents are submitted to LGE for staff review to assure that the applicant/participant meets/continues to meet the level of care criteria.

The Developmental Disability (DD) decision is made by the LGE utilizing the systems entry process. If the individual is determined to meet the DD criteria they are issued a Statement of Approval (SOA), if they do not meet the DD criteria they are issued a Statement of Denial (SOD).

g.	LGE staff conducts a pre-certification home visit to verify accuracy of level of care for all initial evaluations only. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):
	O Every three months
	O Every six months
	© Every twelve months
	Other schedule Specify the other schedule:
h.	Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (select one):
	The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
	The qualifications are different. Specify the qualifications:
i.	Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (specify):
	The Medicaid Data Contractor has edits in the database system for tracking to ensure timely re-evaluations for the level of care.
	Tracking is completed in a database for annual plans of care and annual redetermination of level of care, in cooperation with the waiver participant and his/her personal care physician, and is a component of support coordination.
j.	Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:
	Records of level of care are maintained by the LGE and in the physical office of the Support Coordination Agency.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

B.a.i.a.1 Number and percentage of applicants that have been determined to meet the ICF/DD level of care prior to waiver certification. Numerator = number of applicants that have been determined to meet the ICF/DD level of care prior to waiver certification; Denominator = total number of applications reviewed in the sample.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.
- a. Procedures. Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The Louisiana Department of Health, Bureau of Health Services Financing, Medicaid Eligibility Determination and the LGE informs individuals and/or their authorized representatives of the "feasible alternatives" under the waiver and are given the choice of either institutional or home and community-based services at the time waiver offer is made. LGE currently utilizes the "Case Management Choice and Release of Information Form" to allow the person to state that they understand their choices and the alternatives under the waiver. The information is also reviewed, with the participant and/or authorized representative at a "Pre-certification Home Visit" by LGE staff prior to approval of the initial plan of care and by the Support Coordinator at the annual plan of care meeting.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

The forms are maintained in the records at the LGE and the physical offices of the Support Coordination Agency.
